

## **Water Delivery Shutdown Changed to January 15, 2010**

At their December 15, 2009 meeting, the Glenn-Colusa Irrigation District Board of Directors and District staff received water user input and reviewed construction and repair options regarding the scheduled December 28, 2009, shutdown for emergency repair work at milepost 15.30 on the main canal. As a result, the water delivery system shutdown originally scheduled for December 28, 2009, has been rescheduled to January 15, 2010.

We will be working with the Water User Workgroup and the Board of Directors over the next few months to develop policy to address the water delivery shutdown requirements that are necessary to support the long-term maintenance needs of the District. Please direct any questions regarding this shutdown schedule to Pat Kennedy (518-7135) or Bill Menke (518-7140).
