

## **GCID LANDOWNER AND WATER USER MEETING LURLINE PROJECT June 25, 2025**

If you are in receipt of this postcard, it indicates that you have lands within GCID that will be affected by a necessary interruption in water service from October 1, 2025, through April 1, 2026. The interruption in irrigation deliveries is due to an upcoming construction project to replace the 80-year-old Lurline Check Structure and Siphon on the GCID Main Canal. In an effort to inform, educate, communicate and coordinate efforts to minimize and mitigate this inconvenience, GCID is holding a meeting with those who will be affected.

As such, GCID respectfully requests the attendance of all landowners and water users who will be affected by the upcoming Lurline Check and Siphon Project for an informational meeting to be held on Wednesday, June 25, 2025, at 10:00 a.m., Granzella's Banquet Facility in Williams.

**Wednesday, June 25 - 10:00 a.m.  
Granzella's Banquet Facility  
457 7<sup>th</sup> Street  
Williams, California 95987**
